ADVERTISEMENT FOR BIDS

Sealed bids will be received by Portland Community College, H.E. Lile, Director of Business Services, Room A-6, Ross Island Center, 049 S.W. Porter, Portland, Oregon 97201 until 2:00 p.m. local time, Thursday August 23, 1990 for the project: Portland Community College, Cascade Campus, SKILLS CENTER, as described in the bidding documents on file at said place.

The College has appointed the time for opening of all such bids, the hour of 2:15 p.m. local time on and at the aforementioned date and place.

The College has determined that qualified General Contractors wishing to obtain bidding documents for such bids, may obtain two sets at the office of SRG Partnership, P.C., 621 S.W. Morrison, Suite 200, Portland, Oregon, 97205, upon a deposit of \$100.00. Deposit will be refunded to the unsuccessful bidder(s) within two (2) weeks after Notice of Award providing the documents are returned in original condition and free of markings.

Bidders may not withdraw their bids after the hour set for the opening thereof until after the elapse of thirty (30) days from the bid opening, and all bid proposals shall contain a statement that the provisions of ORS 279.350 relating to the prevailing wage rates shall be complied with.

Emerging Small Business enterprises will be afforded full opportunity to submit bids in response to this solicitation and will not be discriminated against on the ground of race, color, or national origin in consideration for an award of any contract entered into pursuant to this advertisement.

Subcontracting goals on any contract to be awarded as a result of this solicitation are 10% for Emerging Small Business enterprises. Bidders responding must meet these goals or demonstrate good faith efforts to do so. Only those firms certified by the Oregon Executive Department will be counted toward meeting these goals.

It is the position of Portland Community College not to contract with a company that is chartered or licensed in South Africa, a company chartered or licensed in another country whose primary facility is in South Africa, or a company that wholly owns a subsidiary whose primary facility is in South Africa.

Portland Community College reserves the right to reject any or all bids. Inquires regarding this project may be directed to:

NOTICE OF INTENT

The Oregon Department of Transportation, Highway Division, is seeking proposals for providing underwater bridge inspection from qualified firms. The work elements will consist of on-site underwater inspection of structural elements and the preparation of reports for approximately 42 bridges located primarily in the western half of the state. The anticipated cost of these services is expected to range from \$35,000 to \$45,000.

If you are interested in being considered, A Request for Proposals can be obtained by calling or writing Bob Thompson, Consultant Liaison Engineer, 307 Transportation Building, Salem, OR 97310; telephone (503) 378-6563

Proposals are due August 23, 1990.

NOTICE OF INTENT

The Oregon Department of Transportation, Highway Division, is seeking Statements of Qualifications from consulting firms to perform a needs/financial update of previous Roads Finance Studies. The study will begin by October 1, 1990 and be approximately four months in duration. The cost estimate for this study is approximately \$50,000.

If you are interested in being considered, a Request for Qualifications can be obtained by calling or writing Tim H. Thex, P.E., Planning Analysis Engineer, Oregon State Transportation Department, Highway Division, Planning Section, 325 Thirteenth Street, N.E., Room 605, Salem, Oregon 97310; telephone (503) 378-3707.

Statements of Qualifications are due on August 17, 1990.

ENGINEERS

The Washington Water Power Company

Washington Water Power, an investor owned utility (electric and natural gas), serving over 300,000 customers in Eastern Washington and Northern Idaho, has opening for the following Engineering positions:

Electrical Engineer - Generation Design

This position will perform analysis, design, and make modifications to the company's generating station electrical and control systems. The engineer will provide physical and electrical designs and construction details to include detailed equipment, material, and project specifications. In addition, the engineer will perform project management of assigned projects, provide field engineering support while construction is in progress, and will select, direct and coordinate the work of consulting firms and other agencies.

Qualified candidates will have a Bachelor's degree in Electrical Engineering. Working experience with utilities and hydro facilities will be beneficial. A P.E. license in electrical engineering and basic programming skills are desirable.

Mechanical Engineer - Generation Design

This position is to perform detailed system and equipment analysis with all phases of the design and operation of thermal and hydro generating stations and to make recommendations leading to increased plant availability, reliability, and efficiency. The engineer will prepare detailed equipment, material, and project specifications, preliminary feasibility studies, perform project management of assigned projects, and will direct and coordinate the work of consulting firms and other agencies.

Qualified candidates will have a Bachelor's Degree in Mechanical Engineering or the equivalent in technical training. Candidates should have at least three years of professional experience to include: the planning and design of machinery and equipment such as conveyors, HVAC systems, mechanical drive and air movement systems. Experience with electrical utilities and the design of hydro and thermal generation plants is desirable. A P.E. license in Mechanical Engineering is desirable but not mandatory.

Civil Engineering - Generations Design

This position's purpose is to carry out engineering assignments related to civil, structural, and hydraulic systems. The engineer will prepare detailed equipment, material, and project specifications, preliminary hydroelectric feasibility studies, perform projects management of assigned projects, and will direct and coordinate the work of consulting firms and other agencies.

Qualified candidates must have knowledge or technical background represented by a Bachelor's Degree in Civil Engineering or the equivalent in technical training. Candidates should have at least three years professional experience including: reinforced concrete design, various types of steel design, and knowledge of hydraulics. Experience with soils work, utilities, and hydro facilities and generation design is desirable. A P.E. license in Civil Engineering is desirable but not mandatory.

Electrical Engineer - Distribution Design

This position will develop designs for the company's electric distribution system by selecting routes, materials and tools to meet company and customer needs in a timely and economic manner. The engineer will analyze existing distribution feeders and develop plans and budget items for improvement to correct existing or expected weaknesses. In addition, the engineer will line materials, write material specifications and interpret construction codes. The engineer will work closely with other engineers and with construction personnel in the field.

Qualified candidates will have a Bachelor's Degree in Electrical Engineering and working experience in electric distribution with a utility. A P.E. license in electrical engineering and basic computer operating skills are desirable. WWP offers a competitive salary, excellent benefits, and challenging work environment. We are located in Eastern Washington where the quality of living is outstanding and outdoor recreation activities abound in all seasons. Qualified candidates should submit a resume, salary history, cover letter to indicate which position you wish to be considered, and a WWP application form. All information is to be received no later than Monday, August 20, 1990, to:

The Washington Water Power Company
Human Resources -- Employment Office
P/O. Box 3727

Spokane, WA 9920
Please call 1-800-727-9170, Ext. 2098 to request WWP application form.
