

Not Everyone Will Enjoy Coming In From The Cold This Winter.

Show them your warmth by supporting Project Help.

An emergency assistance fund set up to help those who need help paying for heat in winter.

As in years past, deserving applicants will again be determined by the Salvation Army, who will be issuing checks directly to the appropriate fuel supplier.

Last year, your tax-deductible donations, along with those of Pacific Power and PGE employees and stockholders, gave the gift of warmth to thousands of needy people.

This winter, we hope we can count on you again. You'll find the Project Help donation envelope in your November utility statement.

Please give what you can. Because for some people, it could be a real lifesaver.
