City Of Oakridge Request For Proposals Wastewater Treatment Plant Design

The City is requesting proposals for design of a wastewater treatment facility. The selected engineering firm will evaluate the City's selected alternative from its Sewer Facility Plan and design the facility to meet DEQ standards. The engineer shall meet all requirements of Oregon Administrative Rules (OAR) Chapter 340, Division 52 and as otherwise directed. The City is under a compliance order from DEQ to plan and construct improvements to its sewer facilities. A Facilities Plan has been completed. Engineering plans and design are to be completed by June 1, 1991 and construction is to be completed by December 31, 1992. The engineer will be required to meet these deadlines.

The engineer will be required to periodically meet with City staff, City Council, and DEQ in order to have his plans adequately reviewed and approved. The City will provide the Sewer Facility Plan and such other documents or information engineer may need in order to complete his work in a timely manner.

It is the intent of the City to award a construction engineering and administration contract to the selected firm upon satisfactory completion of the design project. **Proposal Requirements:** The proposal must include, as a minimum, the following items:

- 1) A scope of work indicating an in-depth understanding of the work required.
- 2) A detailed work schedule that clearly shows work phases and specific tasks up to the time of completion.
- 3) A listing of project personnel and designation of project manager. Include individual resumes for all team personnel with particular emphasis on prior experience with design and construction A & E. Include names, addresses and phone numbers for reference.
- 4) A Listing of former clients with a summary of work for design and construction A & E. Include names, addresses and phone number for reference.
- 5) A listing of former clients with similar work with whom disagreements have resulted in resolution by a third party. Include a brief summary and list of parties involved such as a mediator, arbitrator, etc. Include also any contract that was suspended or cancelled.
- 6) Total cost for services and proposed method of compensation. Include also a proposed services contract.

Selection Criteria: Selection of engineer will be based on the following as a whole, not individually. The City may make its selection from the proposals without interviews.

- 1) A demonstrated understanding and familiarity with the work to be accomplished.
- 2) Experience and performance of team individuals.
- 3) The firm's experience, technical competence, and resources.
- 4) The proposed work schedule.
- 5) The proposed fee.

Submission Deadline: Formal, complete proposals (5 copies) must be received by no later than 4pm, January 10, 1991 at City hall, 48318 E. First St., Oakridge, Or 97463. For further information contact Jerald A. Shanbeck, Public Works Director, at 782-2258.

Multnomah EDUCATION SERVICE DISTRICT INVITATION FOR BIDS

NO. 015-91-174

CUSTODIAL SUPPLIES, HAND TOOLS, AND OTHER EQUIPMENT
Bids due January 16, 1991, PDT, 4:00 pm

Bids are solicited to furnish the custodial supplies, hand tools and other equipment for this agency's Co-operative Purchasing program. Bids will be received by Michael Mlynarczyk, Purchasing Agency, at 11611 NE Ainsworth Circle, Portland, Oregon 97220-9017 (PO Box 301039, Portland, Oregon 97230-9039) (Phone: 503-257-1791) until no later than 4:00 pm, PDT, January 16, 1991, at which time and address the bids will be publicly opened but will not be read aloud.

The successful bidder will not be required to be licenses for asbestos abatement under section 7 of ORS 468.883.

Specifications may be obtained at the above office. Each bid must contain a statement as to whether or not the bidder is a resident bidder as defined in ORS 279.029. The District may reject any bid not in compliance with all prescribed public bidding procedures and requirements, and may reject for good cause any or all bids upon a finding of the agency it is in the public interest to do so. No bid will be considered that is received after the appointed date and time.

BUSINESS

Business Profile: Scarborough of Dad's Oil

BY CYNTHIA BROWN

When Ed Scarborough decided to reopen his father's oil delivery business in February of 1988, he decided also to name the company "Dad's oil" in honor of the founder, Naymon Scarborough.

After retiring, Naymon sold the business but the new owners couldn't make it go, so they closed it. Consequently, the property fell into disrepair. Ed had left the business ten years before his father retired to be a freight truck driver, but in late 1987, the truckers were striking against the company he worked for. Since he had a lot of time on his hands he decided to tackle the job of cleaning up the property on N.E. Russell. As he did the repair work, many passersby commented that they hoped he was reopening. Ed decided to give it a try and hasn't looked back since. "I love being my own man. I like not having someone standing over me," he commented.

In 1942, when Naymon Scarborough moved to Portland from Birmingham, Alabama, he started delivering coal and wood to the government housing projects (duplexes and

fourplexes) such as St. John's, Bagley Down, Vanport, and Swan Island. After the war, when businesses and houses were converting to oil, he started delivering oil with Ed helping out. "At first we just delivered oil in five gallon cans," recalled Ed. But soon houses were constructed with large, underground tanks. Now Ed makes two or three trips daily in his truck to the Rivergate docks on Front Street and fills up from the huge oil storage tanks there.

His early experience has paid off. Dad's Oil is doing well and Ed hopes to expand in the near future. The secret to his success is personal service. "I specialize in fast service," said Ed. "The bigger companies can't get to you sometimes for two or three days if you need oil. And a lot of them won't deliver under 200 gallons at a time. I deliver seven days a week all year long--on Sundays and even Christmas Day." In fact, last year on Christmas Day three churches ran out of oil and made frantic calls to Ed to save their freezing congregations. "People don't check their tanks. The weather gets colder and they don't think about how much oil their furnace is burning," he commented.

Ed doesn't see the problems in the Middle East affecting his business drastically. "Prices went up a little at first but now they're down by 30 cents a gallon from a year ago," he said. And few people are converting to gas. "It costs a lot of money and no matter what you use for heat--gas or oil or electricity, it's all going to cost you money," he added.

The greatest challenge Ed has faced so far "was getting the business back off the ground." His next challenge was buying and equipping a second tank truck last summer and now he's facing the challenge of expanding the business. And he's committed to staying a minority business owner. "I think having black-owned business is vital. I hope I'm seen as a role model. I'm running my own business and I'm successful," he said.

Ed was born in Alabama and was two years old when the family moved to Portland. "I like to travel, but I'm always glad to get back to the Northwest. I love the coast and the mountains." He has two daughters, both in college--Tina is a business major at Howard University and Angela is attending Jackson State University in Jackson, Mississippi.

Ed's father and mother are still participating in the business by taking the orders over the telephone.

Dad's oil is located at 104 N.E. Russell. They specialize in same-day oil delivery for residence and businesses. The telephone number is 282-5111.

From Discovery To Application Battelle, Pacific Northwest Laboratories Career Open House

Downtown Red Lion Hotel
310 S.W. Lincoln
Portland, OR

Friday, December 14
10:00 AM - 4:00 PM

Saturday, December 15
9:00 AM - 4:30 PM

Battelle, Pacific Northwest Laboratories, in Richland, WA, is working to provide innovative solutions to real-life problems. Our staff works individually and in multidisciplinary teams to attack problems affecting waste disposal, environmental restoration, global change, human health and energy resources. If you share our commitment to preserving the environment and keeping America technologically competitive, come to our Career Open House to discuss employment opportunities and find out how you can make a difference. The Computer Sciences, Information Systems, and Energy Sciences departments will be on hand presenting seminars directly related to how Battelle goes "From Discovery To Application." Learn how you can become part of the Battelle team. We seek candidates with a minimum of a Bachelor's degree and specialized talents in any one of the following areas:

Computational Sciences

- Systems/Software Engineer
- Senior Systems Analyst
- Senior Computational Sciences Research Scientist
- Software Developer
- Computational Sciences Research Scientist

Energy Sciences

- Senior Technical Specialist
- Senior Research Engineer
- Engineer - MSME
- Technical Specialist
- Senior Staff Scientist
- Technical Writers
- Technical Editors

Information Systems

- LAN Manager
- Network Engineer
- Macintosh Support Engineer
- Software Development Engineer
- Information Services Engineer
- Systems Analyst

Seminar Schedule

Friday, December 14

11:00 AM **Distributed Computing at Battelle, Pacific Northwest Laboratories.** Presenter: S.K. Moon, Manager, Computer Systems Support. (Also Sat./10:30 AM)

1:00 PM **Computer Systems Engineering.** Presenter: J.C. Brown, Project Manager, Environmentally Related Systems Integration. (Also Sat./1:30 PM)

2:00 PM **Improving Energy Efficiency in Buildings Through Computer Simulation.** Presenter: J.S. Schliesing, Research Engineer II, Building System Performance.

Saturday, December 15

9:15 AM **Computers and Commercial Buildings.** Presenter: D.B. Crawley, Senior Research Scientist, Building System Performance.

10:30 AM **See Friday, 11:00 AM.**

11:45 AM **Visualizing Science.** Presenter: J.J. Thomas, Lead Scientist, Computational Sciences Department, Chairman ACM-SIGGRAPH.

1:30 PM **See Friday, 1 PM.**

2:30 PM **Computing in the New Decade.** Presenter: S.K. Moon, Manager, Computer Systems Support.

Working at the Laboratories in Richland, Washington, you will enjoy big city amenities and a small town lifestyle. Our community offers affordable housing, quality education, a pleasant climate and year-round recreational opportunities.

If you are interested in learning how to take your talents "From Discovery To Application," but are unable to join us at our Career Open House, forward your resume to: **Battelle, Pacific Northwest Laboratories, Dept. HSCOH, P.O. Box 1406, Richland, WA 99352.** For more information call (503) 221-6996. We are proud to be an Equal Opportunity Employer. Women and minorities encouraged to apply.
