

AFRICAN AMERICAN ALL STARS

Congratulations are in order for the students appearing on these 2 pages. Those who are pictured scored in the top 5% and 20% on the Portland Achievement Levels Test in math and/or reading last fall. Students whose names are listed scored in the top 50%.

In the past we have praised the achievements of African American athletes. Now we dominate most major sports. It is time to see that same "praise" in the pursuit of academic excellence and the list will grow quickly.

Look for these students and let them know how proud you are.
