# "WE DON'T THINK THEY SHOULD SMOKE"

That young people and smoking don't go together has long been the position of the tobacco industry. And the industry has recently launched aggressive new programs with the express purpose of putting cigarettes further out of reach of young people. Here's what we're doing:

- Supporting state laws that would prohibit the sale of cigarettes to those under the age of 18.
- Supporting state legislation to require supervision of vending machines in locations frequented by minors.
- Requiring cigarette ads on billboards to be at least 500 feet from any elementary, junior or senior high school or children's playground.
- Sharply limiting the distribution of product samples and premiums.

**IT'S THE  
LAW**  
WE DO NOT SELL  
TOBACCO PRODUCTS  
TO PERSONS UNDER 18

To help retailers enforce state laws prohibiting the sale of cigarettes to minors, we are providing a sign like the one shown here for display where cigarettes are sold. There is also a new booklet available from The Tobacco Institute for families with young children. It's called "Tobacco: Helping Youth Say No." It helps parents help their children resist peer pressure to smoke. For a copy write to R. J. Reynolds Tobacco Company, P.O. Box 1207, Winston-Salem, NC 27102.

R. J. Reynolds believes that these new tobacco industry programs will help young people understand that smoking is NOT part of growing up.
