KEEP THIS AD FOR YOUR FUTURE

SENIOR SOFTWARE ENGINEERS & SYSTEMS ARCHITECTS

Let's Get Right To The Central Point!

If being on the cutting edge is the *Central Point* among your professional goals and you are willing to go through our challenging selection process for new members, LET'S TALK! *Central Point Software* has become the world leader in PC Utility Software by providing our talented staff with a stimulating environment that has enabled them to produce such highly acclaimed products as PC Tools™, Anti-Virus and Backup.

Our development teams are creating new products for local and wide area networks, graphical user interfaces, and products that support a range of operating environments. You must have in-depth experience with one or more of the following platforms: MS-Windows, Macintosh, OS/2 PM or other GUI environments; MS-Lan Manager or Novell Netware; strong hardware programming of mass storage devices; "C" and/or 80X86 assembler.

But you must have something more; the confidence to be tested by peers who expect much more than mere competence.

Located just minutes from downtown Portland, we offer exceptional opportunities for professional and personal growth in a casual work environment. Mail or Fax your resume, in confidence, to *Central Point Software*, PO-01, P.O. Box 7309, Aloha, OR 97007. FAX: (503)690-2221. For questions, call Bob Clay (collect) at (503)690-2217. Equal Opportunity Employer. Principals only.

Central Point Software INC.™

WAFER FAB OPERATOR TRAINEES

All Trainees Begin as Temporaries

As a rapidly growing subsidiary of Fujitsu Limited - a \$16 billion corporation with 100,000 employees, Fujitsu Microelectronics can offer the excitement of a small team atmosphere and the resources of an international leader. We have a number of openings for entry-level Wafer Fab Operators.

You will begin your learning as a Wafer Fab Operator Trainee by attending an interesting orientation and training program. When you are ready, you will enter the newest and most advanced Wafer Fabrication facility in the world. Your progress will be marked by your growing ability to operate the Wafer Fab Process Equipment. To qualify, you must be at least 18 years of age and have basic math and reading skills, and good manual dexterity.

These long-term temporary positions are based upon individual performance and the production requirements of the company. Some special compensation features will be available to the candidates selected. Trainees will be payrolled through a temporary agency. To apply, visit the Information Desk at the State Employment Division Office located at 19421 SE Stark, Gresham, between the hours of 8 am - 5 pm, Monday-Friday, and ask about the entry level opportunities at Fujitsu. No phone calls please. Equal Opportunity Employer.

METRO ELECTRICAL TRAINING CENTER

THE joint labor/management committee is dedicated to cooperating in public service efforts whose objective shall be to enhance the public image of IBEW Local 48 and the Oregon-Columbia Chapter, NECA and publicize our qualified people and quality work.

IBEW Local 48 electricians are trained at the Metro Training Center, the most up-to-date, full service training facility in the United States. Our five year apprenticeship program and the continuing education for Journeymen produce the best trained, most productive electrical workers in the nation today. Our joint objective is to make use of that skill and promote that talent.

SINCE the first meeting between representatives of the Urban League and the Metro Electrical Apprenticeship Committee 26 years ago, women and other minorities have been recruited and employed in the electrical construction industry. The numbers increase each year, and for 1990, the Metro Apprenticeship program will include 20% women apprentices and 13% minority apprentices.
