

AFRICAN AMERICAN ACADEMIC ALL STARS

CONGRATULATIONS are in order for the students appearing on this page. Those who are pictured scored in the top 5% and 20% on the Portland Achievement Levels Test in math and/or reading this Spring. Due to the late publication of the test results, we were unable to list the names of the top 50%, but they will appear in the Fall.

IN the past we praised the achievements of African American athletes. Now we dominate most major sports. It is time to see that same "praise" in the pursuit of academic excellence, and the list will grow quickly.

LOOK for these students and let them know how proud you are.
