

AFRICAN AMERICAN ACADEMIC ALL STARS

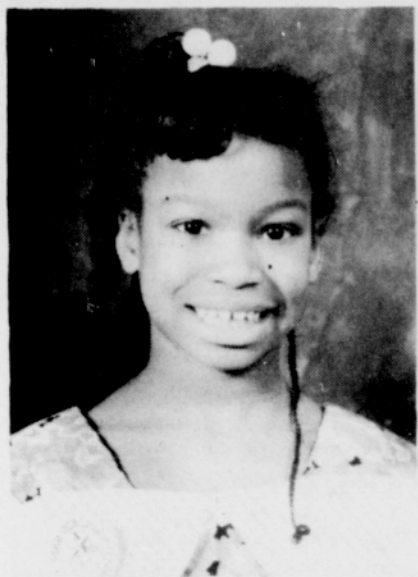

Congratulations are in order for the students appearing on this page. Those who are pictured scored in the top 5% and 20% on the Portland Achievement Levels Test in math and/or reading this Spring. Not shown, but listed below are the Top 50%.

In the past we praised the achievements of African American athletes. Now we dominate most major sports. It is time to see that same "praise" in the pursuit of academic excellence, and the list will grow quickly.

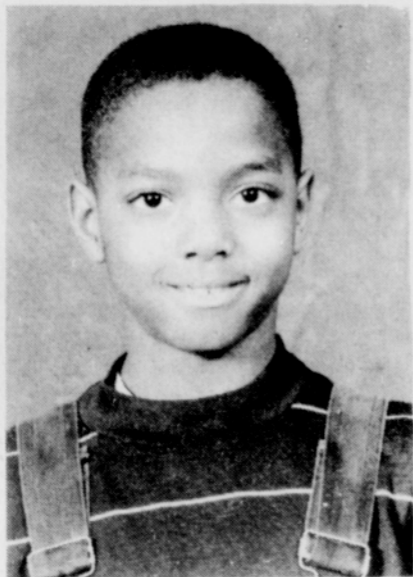

LOOK for these students and let them know how proud you are.
