

YWAM Outreaches to Guatemala

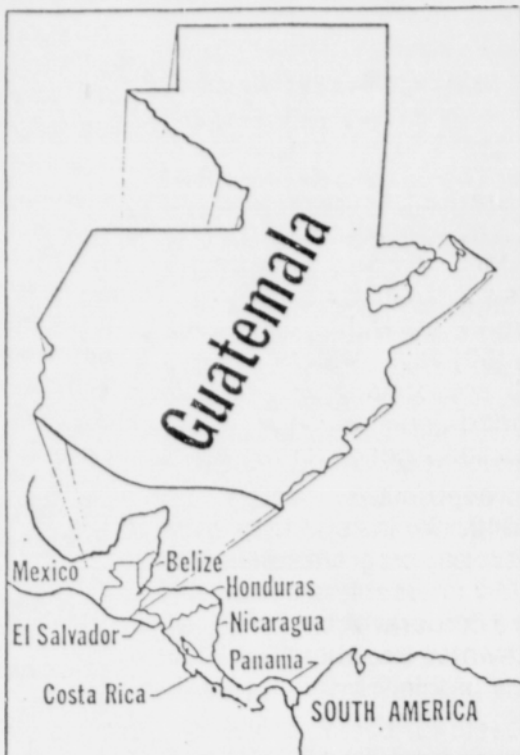

Over the past two decades, YWAM teams have gone in and out of Guatemala. Loren Cunningham led short-term outreach teams to Guatemala as early as the 1960's.

In 1982 a team from YWAM Elm Springs, Arkansas drove to Guatemala for their field assignment. During that time, Loren Cunningham and Oren Paris flew to Guatemala and met with the Christian president, Efraim Rios Montt. Six months later, over 800 YWAM'ers from all over the world converged on this needy nation for six weeks of intensive outreach.

Following that outreach, a small administrative team was established in Guatemala. In June of 1983, a piece of property was located for outreach teams; however, the owners wanted to sell the property, not rent it. Christian leads joined together and sought the Lord. After careful consideration, they decided to purchase the property. YWAM'ers and Christian ministries all over the world pitched in to purchase what is now "Villa JUCUM," or the literal translation would be "YWAM Village."

Since that time, hundreds of YWAM'ers and non-YWAM'ers have joined us in reaching this beautiful, but needy country. In 1988 over 128,000 people heard the gospel through drama presentations alone. Also, in 1988, YWAM Guatemala hosted the first "Go

Fest" to be held in a developing country. Hundreds of young people were challenged to be involved in the Great Commission. Immediately following the event, outreaches were provided for them to "GO!"

Mercy ministries are a major part of our outreach in Central America. Our Mercy Ministry Team regularly reaches out to refugees, the poor and needy, alcoholics and glue sniffers in the city dump.

In 1989, after prayer and fasting as a community, we decided to include YWAM Guatemala as an extension of YWAM's University of the Nations. We are focusing on building our university program to provide courses in health care and communications.

They're SO YOUNG,
SO TALENTED,
SO EXCITING TO SEE.

Notify IRS When You Move

Have you moved recently? Or are you planning to move? If so, make sure the IRS has the correct address to mail your refund. Last year Oregonians had nearly \$250,000 returned to IRS by the Postal Service as undeliverable because IRS didn't have current addresses.

Don't let this happen to you. Put a change of address in at the Post Office when you move or list a more permanent address on your returns, like a parent, if you move often.

Receiving your refund at the correct address is not the only reason to inform IRS of your move. If IRS tries to notify you of a change in your return, or sends a bill, the notice is legally effective even if you don't receive it. Don't let this happen to you. Being informed is your best protection.

If you haven't filed your return yet but your preprinted label has the old address on it, simply correct the address on the label. This is the simplest way to notify IRS of the change. IRS will update your records when the return is processed.

At Chrysler, air bags are only part of the safety picture.

▲ A Driver's Air Bag
used with a lap/shoulder belt is the best driver safety system available today.*

▲ Integrated Child Seats†
World's first integrated child seats encourage proper child restraint and conveniently fold away when not in use.

▲ Child-Protection Locks, when engaged, prevent rear doors from being opened from the inside.**

▲ Remote Keyless Entry†
A touch of the button unlocks the door or trunk, disarms the theft alarm and turns on the lights inside the car.

▲ Visorphone†
The cellular phone that fits in the driver's sun visor. With one touch dialing, it lets you talk on the phone and still keep both hands on the wheel.

▲ Galvanized Steel Side Door Beams help protect driver and passenger from side impacts.**

▼ Anti-Lock Brakes†
prevent wheel lock-up to help you retain steering control even in a sudden stop in rain, snow or on ice.

All-Wheel Drive†
provides superior straight-line acceleration, and better traction and cornering ability on wet roads.

Chrysler is an innovator in safety. All aspects of it. Chrysler was the first to put air bags in every production car and minivan it builds in the U.S.* Now Chrysler offers what may be the most significant advance in providing child safety—the world's first fully integrated child seat.

ADVANTAGE : CHRYSLER
CHRYSLER · PLYMOUTH · DODGE · DODGE TRUCKS · JEEP · EAGLE

*Excludes Viper and models built for Chrysler. Imports, Premier, Monaco, Summit, Laser and Talon. Driver's minivan air bag fully effective only when used with seat belt.
**Not available on all vehicles. Child protection lock activation switch located on rear door facing. †Available option, select models.
