Mike Lindberg Gets Leadership Post On NLC "Futures" Panel

Commissioner Mike Lindberg of Portland, Ore., has been named vice chairman of a special group of municipal leaders within the National League of Cities that examines emerging issues which are likely to have broad effects on cities and towns throughout the United States.

Lindberg was appointed to the leadership post on the NLC Advisory Council by League President Glenda E. Hood, city commissioner of Orlando, Fla. The council, chaired this year by City Director Lottie Shackelford of Little Rock, Ark., is made up of more than 50 veteran leaders of NLC who have already served as members of the League's board of directors.

"Mike Lindberg has provided thoughtful leadership and a tremendous level of personal energy and commitment to NLC, and tremendous level of personal energy and commitment to NLC, and we are delighted that he can take on this new leadership role," said Commissioner Hood.

The Advisory Council develops recommendations for the NLC board and policy committees about the potential impacts of emerging issues that are likely to affect American communities.

A new "futures" project, focusing on families and children, will be launched by the Advisory Council this year. The group will hold its first meeting on March 8 during the 1992 congressional-city conference in Washington.

"The importance of this year's Advisory Council agenda has been underscored by President Bush's plans to establish a Presidential commission on Urban Families," Hood said. "A group of NLC leaders had suggested such a commission at a White House meeting with the president, and we intend to support the work of this commission with the best ideas and resources we can offer."

Can't Pay? File Anyway

If you can't pay your taxes, you should still file your tax return on time.

The IRS says this way you will save money because you won't have to pay a penalty for filing late. You should send as much money as you can with your tax return.

Sometimes the IRS will let you pay your taxes in installments. Other times the IRS will as you to get a loan. You may need to sell something to pay your taxes.

One of the worst things to do is not to file a tax return at all. That could add a lot more to your taxes.

If you have any questions about how to pay your taxes, you can call the IRS. The number is 1-800-829-1040. This is a toll-free telephone number.
