Columbia South Shore Hazardous Materials Containment Facilities Design Handbook

The existing handbook describes the facilities required or recommended in the Columbia South Shore Plan District to protect the underlying groundwater systems. The concepts may be applied at location outside the South Shore Area where the release of hazardous materials could threaten the City's groundwater supply.

The handbook contains a mix of design and performance requirements. Currently the primary requirement is complete containment of runoff within the portion of the site containing hazardous materials and reliable runoff detention to allow clean-up before containments reach surface and/or ground water system. This is no longer adequate and the hazardous materials containment program will be re-evaluated and the handbook revised.

The City of Portland requests Statements of Qualifications (SOQ) from firms with expertise in the following areas:

- local, state, and federal standards, laws, and regulations covering the use, storage, handling, and transportation of hazardous materials.
- design and construction of hazardous materials containment facilities.
- design and construction of surface water quality facilities and familiarity with non-point source pollution.
- emergency hazardous materials response and clean-up
- risk assessments and cost-benefit analysis.

Applicants should also be familiar with the City of Portland's permitting and review process, environmental engineering, non-point source pollution and stormwater treatment, ground water hydrology, construction engineering, experience with under ground-storage tanks and the UST program, economic analysis, ground water/surface water interactions and the City of Portland's Well-Field Protection Program.

The SOQ must include:

1. Name of firm, year established, size of staff and type of services qualified to perform.
2. Descriptions of recent projects prepared by the firm which are similar to those recommended in the Columbia South Shore Hazardous Materials Containment Facilities Design Handbook.
3. A proposed project team organization chart and paragraph resumes of key staff members who would be available to work on the project, with emphasis on recent experience and roles in similar projects.
4. Indicate participation from qualified disadvantaged owned businesses.
5. Provide similar information to above for any proposed subconsultants.
6. The SOQ should not exceed 10 sheets of paper (use both sides) including dividers, figures, charts, tables or other diagrams. Detailed resumes may be included in an appendix.

Interested firms shall provide six (6) copies of SOQ to the Project Manager, Eric Machorro, no later than 12:00pm. May 21, 1993 to the Bureau of Environmental Services, 1120 SW 5th Ave Rm 400, OR 97204. To obtain an information packet, contact Betty Murray at (503) 823-7213.

The City especially encourages SOQ from qualified disadvantaged (minority/female) owner businesses. Applicants submitting qualifications should note that Equal Employment Opportunity certification with the city of Portland is necessary for submission as outlined in Chapter 3.100 of the City Code. Certification requirements are available from the Bureau of Purchases and Stores, 1129 SW 5th Ave., Room 1313, Portland, OR 97204, phone (503) 823-6855.

Request For Proposal

C-TRAN is accepting proposals from DBE firms interested in providing Pre-Award/Post Delivery Audit Services on five (5) 23'-25' vehicles. This Federally funded project has been determined a set-aside for firms that qualify as Disadvantaged Business Enterprises. Requests for Proposals may be obtained from C-TRAN, PO Box 2529, Vancouver, Washington, 98668-2529, (206) 696-4494.

Sealed proposals will be accepted until 2:00 p.m., Local Time, Tuesday, June 1, 1993.

Notice To Contractors

N.E. Roberts Avenue Waterline and Storm Sewer Project

Waterline Improvements Project No. 4148 Storm Sewer Improvements Project No. 9002

Sealed Proposals will be received by the Department of Environmental Services at City Hall, 1333 N.W. Eastman Parkway, Gresham, Oregon 97030, until May 25, 1993, at 2:00 p.m. local time, at which time they will be opened, for the construction of the N. E. Roberts Avenue Waterline Project No. 4148 and Storm Sewer Project No. 9002.

The major quantities involved are as follows:

2,020	L.F.	8" D.I. Pipe, CL52, In Place
6,270	Lbs.	Fittings
14	Each	8" Resilient Seat Gate Valves
7	Each	Fire Hydrant Assemblies
16	Each	1" Copper Services
181	L.F.	18" D.T. Storm Sewer Pipe
170	L.F.	18" Concrete Storm Sewer Pipe
274	L.F.	24" Concrete Storm Sewer Pipe

Contractor for this work shall furnish all labor at current State of Oregon prevailing wage rates, materials and equipment and services of all kinds to complete the work in accordance with the plans and specifications therfor.

Plans and specifications may be examined at the office of the Department of Environmental Services, 1333 N.W. Eastman Parkway, Gresham, Oregon. Copies of said plans and specifications may be obtained upon application to the Department of Environmental Services and by posting a non-refundable fee of \$25 with the Department of Environmental Services for each set of plans and specifications requested. Questions concerning this project should be addressed to Mike Shane, Project Manager, at (503) 669-2633.

Contractors must prequalify for construction with the City of Gresham, as required by the laws of the State of Oregon, before the date of the bid opening. Other wise, their proposal may not be given consideration.

Contractors shall obtain a City of Gresham business license prior to commencing work.

All proposals must be submitted on the regular forms furnished by the City of Gresham, addressed and mailed or delivered to the Department of Environmental Services, City of Gresham, in a sealed envelope plainly marked, "SEALED BID for the N.E. ROBERTS AVENUE WATERLINE PROJECT NO. 4148 AND STORMSEWER PROJECT NO. 9002" bearing the name and address of the bidder. Each must be accompanied by a certified check, cashier's check or bid bond in an amount not less than ten percent (10%) of the total bid. A performance and payment corporate surety bond in the full amount of the contract shall be required to guarantee faithful performance of the terms of the contract at the time of contract execution.

In determining the lowest responsible bidder, the public contracting agency shall, for the purpose of awarding the contract, add a percent increase on the bid of a nonresident bidder equal to the percent, if any, of the preference given to that bidder in the state in which the bidder resides.

Each bid must contain a statement as to whether the bidder is a resident bidder, as defined in ORS 279.350 will be complied with.

Each bidder must file with his bid an affidavit of non-collusion.

The City of Gresham reserves the right to reject any and/or all bids, waive informalities or to accept any bid which appears to serve the best interests of the City.

The City of Gresham is an equal opportunity employer.

By Order Of City Council
