Fifth Grader At **Kenton Elementary Is Thankful For Awards**

Tiffany James is eleven years old, born here in Portland Oregon. She has had a GPA of 3.0 for the last two years.

First I' d like to thank God who's the head of my life because He's the one who made it possible for the awards that I have received. I earned my awards by praying and asking God to be my helper and believing in myself that I can do all things through Christ who strength-

ens me.

My long term goal is to go to heaven and my short term goal is to be a judge not just a judge, but a God fearing judge so that I will be able to help this community to become God fearing successful people. I would also like to have a Christian Day Care Center, so that I can teach children about God while they are young.

I would like to give my mother, Lisa Lafaye Duckett, thanks for supporting me, and my teacher Mrs. Placenia for being a good christian teacher and all of the staff at Kenton School and all of my family.

Thanks, Tiffany James
