in speaking with some of the special guests and camp participants these were some of the comments they made about the camp. Governor Barbara Roberts was asked her feelings about the camp. This is what she had to say. "Camp Rosenbaum is one of the most unique camps in the state of Oregon and probably in the nation because of the way it looks at the kids in the Housing Authority program and offer them an opportunity to participate in a program like camp Rosenbaum. And experience some of the things many of them never had the opportunity to do. Such as visiting the coast, arts and crafts, campfire, computers and lots more of the many things the camp-have to offer. Governor Roberts also went on to say that the camp is all about caring, respect, love and staying drug free and that is exciting to see kids from all different ethnic back grounds to be able to come together and have good times and become real partners for a better Oregon. Major General Gene Katke said that he was very proud to be a part of the camp and that it was every citizen of Oregon Civic responsibility to see to it that the camp works and is there for the kids.

In talking with some of the young
