

# BIDS/SUB-BIDS

## Notice Of Opportunity For Public Hearing

Notice is hereby given that a public hearing, if so requested by any interested person, will be held by the Tri-County Metropolitan Transportation District of Oregon (Tri-Met) at 3:30 pm, Wednesday, October 25, 1995, at the Metro Council Chambers, 600 NE Grand, Portland, Oregon, for the purpose of considering a project for which federal assistance under the Intermodal Surface Transportation Efficiency Act of 1991 as amended (ISTEA), and Sections 5307 and 5309 of Title 49, U.S.C. is being sought. Persons requesting that this hearing be convened should contact Tri-Met's Grants Administrator, by telephone at 503/238-5849, or in writing at 4012 SE 17th Ave., Portland, OR, 97202 by Thursday, October 12, 1995.

The project under consideration is Westside-Hillsboro Light Rail. Tri-Met received federal approval in September 1992 to design and construct the Westside rail project from downtown Portland to SW 185th Avenue in Washington County. In December 1994 the Federal Transit Administration approved an amendment to extend the rail line from SW 185th into downtown Hillsboro by Fall, 1998. In addition to continuation of the rail project, the application will include a proposal to develop housing on surplus land in the area of the Civic Stadium. The scope, schedule and budget for construction of a parking structure at the Sunset Transit Center will also be described.

Fiscal year 1996 funds requested in this grant application for continuation of the rail project include \$8,000,000 in federal assistance under Section 5307 of Title 49, U.S.C., \$22,000,000 in state funding available through the ISTEA Surface Transportation Program, and up to \$130,100,000 in federal assistance under Section 5309 of Title 49, U.S.C. (Exact amount to be determined by Congress.) These federal funds would be matched with up to \$58,364,416 in local and state dollars. Minor adjustments to the project's financing plan may be included in the grant application.

Project expenditures will support civil construction including tunnel excavation; final design; procurement of vehicles, track, electrification, signals, communication and fare collection equipment, and other system requirements; right of way acquisition; and project administration.

A discussion of displacement of persons, families and businesses associated with the Westside-Hillsboro Project is included in Final Environmental Impact Statements on file at Tri-Met offices. The project is in conformance with comprehensive land use and transportation planning in the area and is programmed in regional and state Transportation Improvement Programs.

In the event a hearing is held, Tri-Met will afford opportunity for interested persons or agencies to be heard with respect to the social, economic, and environmental aspects of the project.

A person requesting a sign language interpreter shall give Tri-Met at least 48 hours notice of the request by contacting Tri-Met at 238-4952 or TDD 238-5811, Monday through Friday, 8:00am to 5:00pm.

A copy of the grant application, Westside-Hillsboro environmental documents, and Tri-Met's transit development plan are available for public inspection at the Tri-Met Grants department, 4th floor, 4012 17th Ave., Portland, OR.
