CRIME STOPPERS

Police Probe Social Club Murder

Portland police Bureau homicide detectives, in cooperation with Crime Stoppers, are asking for your help in identifying and apprehending the suspects in a homicide.

On Friday, Sept. 15 at about 1:20 a.m., four Vietnamese males, 18 to 24 years of age, entered the Bing Kong Tong Chinese Social Club at Northwest Fourth Avenue and West Burnside Street.

One of the suspects displayed a handgun, announced a robbery and ordered everyone to the floor.

As the patrons were being robbed, a single shot was fired, striking 61-year-old Bing Woon Joe. After the shooting, the suspects fled from the club. Joe was transported to a local hospital where he died.

Crime Stoppers is offering a cash reward of up to \$1,000 for information, reported to Crime Stop-

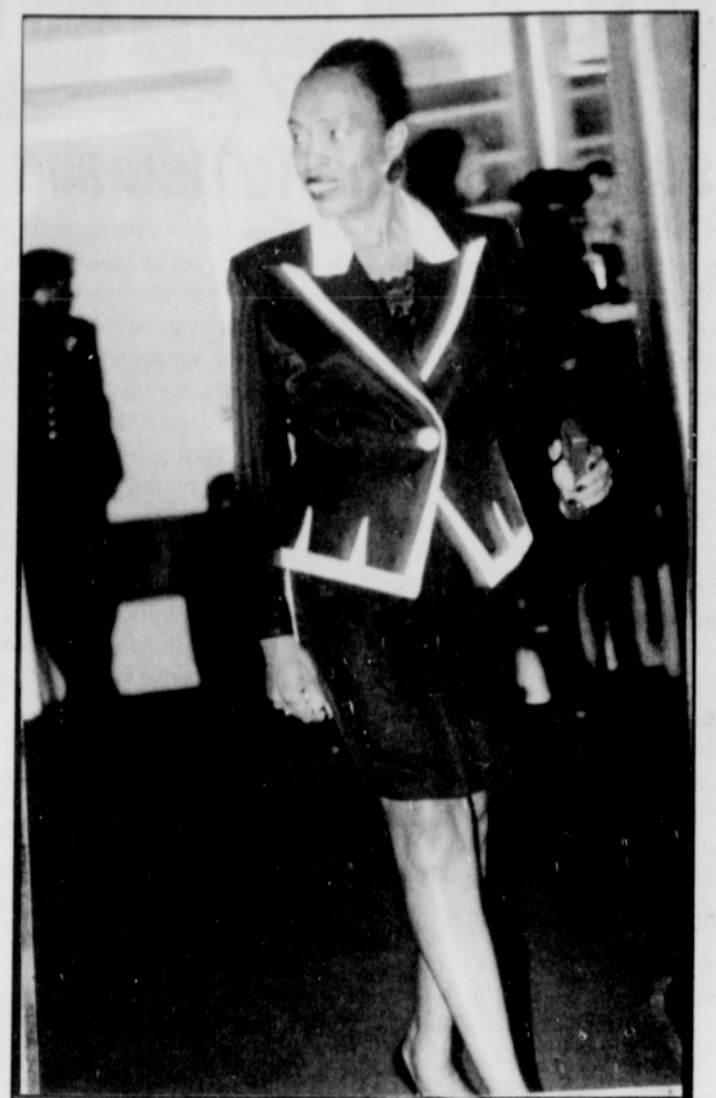

Murder victim Bing Woon Joe.

pers, which leads to an arrest in this case or any unsolved felony crime and you can remain anonymous. Call Crime Stoppers at (503) 823-HELP. Vietnamese speakers can call (503) 823-2073.

Step Taken In Vaccine For Multiple Sclerosis

Researchers in Belgium and the Netherlands may have taken a first step towards a vaccine for multiple sclerosis.

In a report in the Lancet medical journal, they said using the body's own immune system cells could help prevent recurrent episodes of the illness.

MS is caused when the immune system turns against the body, damaging the protective myelin sheaths around the nerves. It can cause double vision, loss of feeling and sometimes paralysis.

Jeff Raus of the Dr. L. Williams Institute in Diepenbeek, Belgium and colleagues injected inactivated T-cells into eight MS patients.

Five of them had a form of the disease characterized by episodes followed by relapses, and three had chronic progressive MS, in which the disease gets steadily worse.

Two to three years later, the patients with the relapsing form of the disease had fewer relapses—an average of three compared to 16 before vaccination.

Also, in some patients, brain lesions seemed to develop more slowly after vaccination.

"Our data suggest a moderate clinical improvement in some patients with relapse-remitting MS who receive T-cell vaccination," they wrote, adding that much more research was needed.

Man Killed On North Portland Street

Portland Police are investigating a murder that occurred about 9:40 p.m. Friday at North Killingsworth Court and Albina Avenue.

Police were called to the intersection after a caller reported a man at that location staggering in the street, clutching his neck and saying that he had been shot.

The victim, identified as Phillip Greene, 33, of Vancouver, collapsed

onto the sidewalk and died from a gunshot wound to his head, police said.

The initial investigation suggested that the incident began when the victim walked up to a truck which stopped near the corner. Shortly thereafter a shot was fired. The truck then left the scene.

No arrests have been made. Detectives Dave Rubey and Terry Wagner are the investigators.

I refuse to accept the idea that the "isness" of man's present nature makes him morally incapable of reaching up for the "oughtness" that forever confronts him.

—Martin Luther King, Jr.

The Celtic Festival of Samhain is probably the source of the present-day Halloween celebration. Their new year began on Nov. 1 and the previous evening honored Samhain, the Celtic lord of death.
