

# Where do most Kaiser Permanente members go for health care?

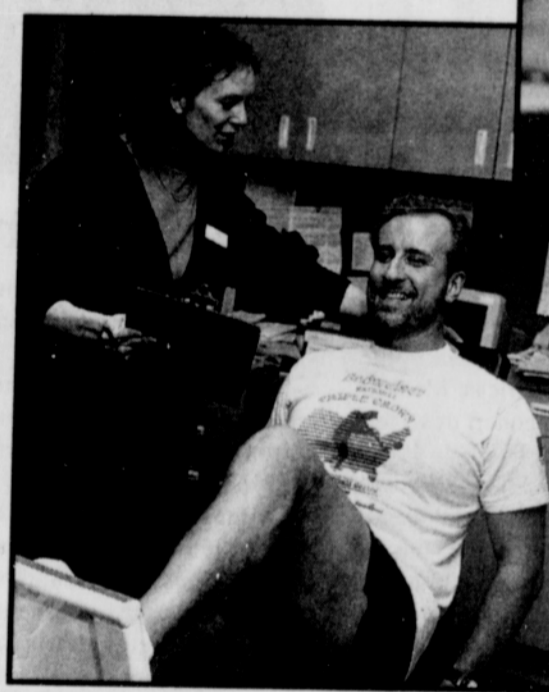

## Answer: Our Medical Offices.

Many people are surprised to learn that a majority of the medical care services our health plan members want are conveniently located at our medical offices. Kaiser Permanente operates 17 medical offices throughout Northwest Oregon and Southwest Washington. Our Central, East, and West Interstate medical offices have served the North Portland community for nearly 25 years.

In 1994, more than 184,000 people in North Portland received care at these medical offices compared with 2,500 admissions at Bess Kaiser Medical Center. We're continuing to plan additional services to deliver the best possible care to our members in 1996 and beyond.

### Care & Services Available

- |                            |                              |
|----------------------------|------------------------------|
