

“There comes a time when a moral man can't obey a law which his conscience tells him is unjust. And the important thing is that when he does that, he willingly accepts the penalty—because if he refuses to accept the penalty, then he becomes reckless, and he becomes an anarchist. There were those individuals in every age and generation who were willing to say, 'I will be obedient to a higher law.' It is important to see there are times when a man made law is out of harmony with the moral law of the universe.”

- Martin Luther King Jr.

“The belief that god will do everything for man is untenable as the belief that man can do everything for himself. It, too, is based on a lack of faith. We must learn that to expect God to do everything while we do nothing is not faith but superstition.”

- Martin Luther King Jr.

“Justice for black people will not flow into society merely from court decisions nor from fountains of political oratory. Nor will a few token changes quell all the tempestuous yearnings of millions of disadvantaged black people. White America must recognize that justice for black people cannot be achieved without radical changes in the structure of our society. The comfortable, the entrenched, the privileged cannot continue to tremble at the prospect of change in the status quo.”

- Martin Luther King Jr.

“We must use time creatively, in the knowledge that the time is always ripe to do right. Now is the time to make real the promise of democracy and transform our pending national elegy into a creative psalm of brotherhood. Now is the time to life our national policy from the quicksand of racial injustice to the solid rock of human dignity.”

- Martin Luther King Jr.
