## ENGINEERING

FLIR Systems, Inc. is a worldwide leader in the design, manufacture and marketing of visual and infrared (thermal) imaging systems. FSI supplies infrared cameras, PC-based systems and software widely used in critical industrial applications including R&D, process control, quality assurance, and predictive maintenance. Airborne applications include law enforcement, search and rescue, environmental monitoring, and maritime patrol. In addition, we are successfully building on our core competencies in visual and infrared imaging to address burgeoning opportunities in the machine vision and stabilized broadcast camera markets. FSI is enjoying outstanding growth supplying infrared and broadcast systems both in the U.S. and internationally.

*The future at FSI is limited only by imagination, join us, and help fulfill it!*
