Advertisement For Bids

City of Portland
Columbia Slough Consolidation Conduit Project
Construction Segment 2: Outfall 58 to I-5
Proposals due 2:00 PM, September 23, 1997
Invitation For Proposal

Bid #98023

Sealed Proposals will be received at the **Bureau of Purchases, Room 1313, Portland Building, 1120 Fifth Ave., Portland, OR 97204, phone number (503) 823-6855, for the Columbia Slough Consolidation Conduit Project, Construction Segment 2: Outfall 58 to I-5, until 2:00 PM on September 23, 1997.** Bids for this project will be on a lump sum basis. A mandatory pre-bid conference will be conducted at the time and place indicated on the cover of the Specifications. Prospective bidders not represented at this meeting will be considered to be non-responsive bidders.

The 144-inch ID portion of the Columbia Slough Consolidation Conduit Project consists of a combination sewerage conveyance and storage pipeline with appurtenances, to be constructed between the Columbia Boulevard Wastewater Treatment Facility and I-5. The 144-inch pipeline will have a total length of approximately 2 miles and is made up of Construction Segment 1 to be constructed using primarily conventional cut and cover methods, and construction Segment 2 to be constructed primarily by tunneling.

Work performed through this Contract, Columbia Slough Consolidation Conduit: Construction Segment 2, will construct a facility 8,361 feet long. It will include, without limitation, construction of 7,976 linear feet of tunnel, 7,955 linear feet of 144-inch diameter tunnel permanent liner, 150,72 linear feet of 144-inch reinforced concrete pipe, 199 linear feet of 72-inch reinforced concrete pipe, and approximately 300 feet of pipe of varying sizes and materials connecting structures and existing sewerage facilities. The work includes compaction grouting for settlement control and stabilization grouting. The work also includes four (4) hydraulic control structures that tie into an existing parallel interceptor sewer. The inter-tie work involves making plugged connections to the existing interceptor including temporary bypass facilities to keep active flow out of the new pipeline until a later date. The work also includes demolition of an existing industrial building, construction of a ventilation facility, and construction of a noise berm of approximately 20,000 cubic yards along Columbia Boulevard. The Contractor shall perform all labor, and furnish all materials, equipment, and all related utility modifications, traffic control, surface restoration, environmental controls, settlement control and monitoring and other work necessary to make each and every item complete for Construction Segment 2 as described in the Bid Documents.

Much of the foregoing work will require working with live sewers and keeping them in operation during performance. The work will also include appropriate abandonment of existing facilities taken out of service and restoration of areas affected by the work.

Plans and Specification may be obtained at the Columbia Boulevard WWTP, 5001 North Columbia Boulevard, Portland, OR (503) 823-2506. For additional information, telephone Michele Ackerman at (503) 823-2505. For other contacts, consult the table of names and addresses in Section 00050 of the specifications.

Unless otherwise stated in the individual proposal listed herein, no proposal or bid will be considered unless accompanied by a bid surety for an amount not less than ten percent (10%) of the aggregate amount of the proposal.

The City may reject any bid not in compliance with all prescribed public bidding procedures and requirements, and may reject for good cause any or all bids upon a finding of the agency it is in the public interest to do so.

The City encourages bidding by MBE's, WBE's, and ESB's, and will assist such firms to understand and participate in formal bidding processes. Divisions of work that may have M/W/ESB possibilities are demolition, trucking, asbestos abatement, and electrical work. A Mandatory Prebid For Prime/General Contractors Will Be Held August 27, 1997 at 9:00 AM at the Portland Bldg. 1120 S.W. 5th Ave. Portland OR 2nd Floor Conference C.

Non-Discrimination: No Proposal or Bid will be considered unless Bidder is certified as an EEO Affirmative Action Employer as prescribed by Chapter 3.100 of the Code of the City of Portland.

On all construction projects the successful bidder will be required to certify that it is in compliance with ORS 279.349 to 279.383 or with the Davis Bacon Act, 40 USC 5 276a relative to prevailing wage rates, whichever is specified in the bid documents. No bid will be received or considered unless accompanied by a statement from the Bidder as part of the Bid that as Contractor, it will conform with the provisions of ORS 279.350 or of 40 USC 5 276a, whichever is specified.

For this project, all bidders are required to be prequalified. Each bidder on Construction Segment 2 must be prequalified by the City Engineer in Class 33; Project Specific Tunnel Work for an amount in excess of its bid amount.

Bidders not prequalified in Class 33: Project Specific Tunnel Work must file a prequalification application at least forty-five (45) calendar days prior to the due date for proposals noted above. Prequalification application forms and instructions will be included in the bid documents. Prequalification applications received less than forty-five (45) calendar days prior to the proposal due date may, at the Owner's option, be processed, but the applicant in failing to meet the foregoing deadline waives all right of appeal of possible disqualification.

In accordance with Specification Section 01037, the City intends to offer the Contractor and its subcontractors and opportunity to enter into a cooperative partnership, structured to take advantage of the strengths of each organization. The objective of the partnering arrangement is the effective and efficient completion of the work, on time and to a standard of quality that will be a source of pride to both the City and the Contractor. Participation is voluntary and is not an evaluation factor for award.

Escrow Bid documents shall be submitted by the three lowest bidders in accordance with the Supplementary General Conditions, Paragraph 12.03.

In accordance with the Supplementary General Conditions Paragraph 12.03, the City and the Contractor will also mutually establish a Dispute Review Board for this Project. The Board's duties shall include facilitating and assisting in the timely and equitable resolution of disputes arising out of the Contract, which have not been resolved at the project level within the time prescribed by the Contract documents. It is intended that the Board's efforts will result in avoidance of litigation, mitigation of delay and expense, and will assist in fostering good relations and teamwork between the parties to the Contract.
