## Employee Commute Options Technical Assistance

The Oregon Department of Environmental Quality (DEQ), Northwest Region office, Air Quality section is requesting proposals for innovative projects or programs that provide technical assistance for employers that must comply with the Employee Commute Option rules. Under the ECO program, employers in the Portland area with more than 50 employees reporting to a single work site must provide alternative commute options to employees which have the potential to reduce the number of employee cars driven to the work site by approximately ten percent within three years.

Transportation Management Associations (TMA), local jurisdictions, non-profits, consultants or consulting firms and private businesses can apply to this Request for Proposals (RFP). However, these funds are not intended for employers to use for their own compliance with the ECO rules. This RFP is supported by federal funds which do not allow for the funds to directly benefit one private business or individual. A project or program must benefit more than one employer located in the Portland Air Quality Maintenance Area (AQMA). The AQMA contains most of Multnomah, Washington and Clackamas counties.

The types of projects that will meet the intent of the *Congestion Mitigation and Air Quality Improvement (CMAQ)* funds and the ECO program include, but are not limited to the following: parking management; employer-sponsored programs to permit flexible work schedules; bicycle and pedestrian facilities fringe and transportation corridor parking facilities serving multiple-occupancy vehicle; telecommuting; transportation demand management; ECO outreach activities; rideshare; joint public and private initiatives that reduce transportation related air pollutants; establishing/contracting with transportation management association; multiple employer based transportation management plans, including incentives; experimental innovative financing of ECO alternative commute options.

The estimated maximum amount available is \$353,000. One successful applicant may be awarded the entire amount or a partial amount or several successful applicants may be awarded varying dollar amounts depending on *project costs*. **The Disadvantaged Business Enterprise (DBE) participating goal is 11%.**

To request an RFP please call or write to Susan M. Christensen, Department of Environmental Quality, Northwest Region, 2020 SW Fourth Ave., Suite 400, Portland, OR 97201-4987. Telephone: (503) 229-5518.

Four copies of the proposal must be received by 5:00 p.m. PST on October 6, 1997. Proposals must be addressed to: Oregon Department of Environmental Quality, Attn: Audrey O'Brien, Air Quality Manager, 2020 SW Fourth Ave., Portland, OR 97201-4987 Telephone: (503) 229-5518.

Schedule: RFP release date is August 11, 1997; RFP close date is October 6, 1997; estimated date of interviews if requested is **November 1997**; estimated contract(s) award date is **December 1997**; estimated contract(s) effective date is **January 1998**.
