Portland, OR 97211; **Phone:** 281-8489

WE APPRECIATE YOUR BUSINESS AND SUPPORT  
THANK YOU

Why in the world is your electric company spending time in the

# jungle?

**IF YOUR COMPANY  
IS PACIFIC POWER,  
THE REASON IS  
GETTING CLEARER.**

*We're working on reducing  
carbon dioxide (CO<sub>2</sub>) in the air.*

*Pacific Power has joined forces  
with The Nature Conservancy  
and the Programme for Belize in  
an unprecedented international  
effort to reduce greenhouse  
gas emissions by protecting the  
tropical rain forest of Belize.*

*In partnership with four other  
U.S. energy companies, we  
will contribute \$600,000 over  
ten years to buy 15,000 acres  
of endangered rain forest and  
manage another 105,000.*

*By preserving the rain forest,  
Pacific Power is testing a strategy  
to offset CO<sub>2</sub> emitted by cars,*

*coal-fired power plants and  
other industries. Many scientists  
believe that higher levels of  
CO<sub>2</sub> and other greenhouse gases  
could increase the temperature  
over time. Because trees and  
plants naturally absorb CO<sub>2</sub> from  
the atmosphere, planting and  
protecting trees in Belize could*

*help balance the CO<sub>2</sub> emissions  
thousands of miles away. In  
fact, scientists estimate that  
our Belize project could reduce  
greenhouse gas emissions by  
5.2 million tons over 40 years.  
And, that's not only good news  
for people in our area, it's good  
news for the entire planet.*
