## From The Desk Of Mayor Vera Katz...

"I am committed to ensuring equality for all our citizens. As diversity is important to the social health of a city, so is the diversity of our economy. I am proud of the strides this city has made, from our success with implementation of the Fair Contracting and Employment Strategy to specific programs like the Sheltered Market Program. Of course, none of this would be possible without the support of many citizens. So, I want to take this opportunity to thank those who have provided us their steadfast devotion to doing the right thing. With your help, I truly believe that economic equality is in our reach."
