

Vision Council Of America

By Tony Washington

The Vision Council of America visited the Rose City on April 21st at the Marriott Hotel (on NW. Front St.). They provide clients with many different frame styles from a multitude of manufacturers.

Their tour started a month ago in New York which came to Portland as one of its last stops. Oregon Health Plan carriers may be able to have their frames provided by The Vision Council of America since they provide eyewear that works for everyone.

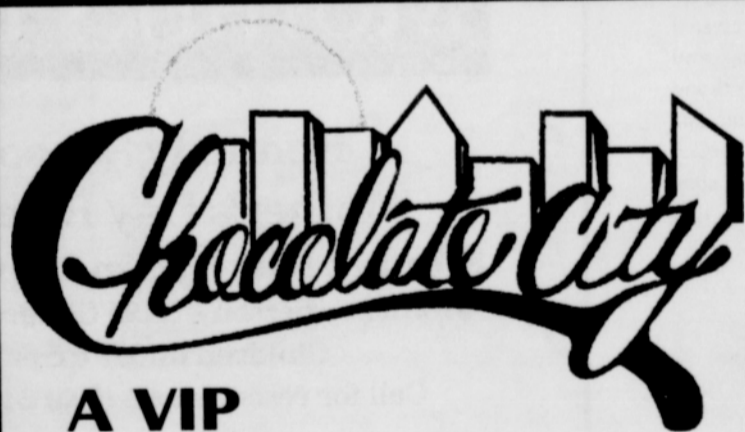

Susan Norton, the lead vocalist for Betty Already was referred by Anne Magan (of Portland Center Stage) to receive an eyewear makeover by a regional representative of the Vision Council of America.

Happy
Birthday
