

RETURNING POWER TO THE PEOPLE

"In these times of unprecedented economic prosperity, low unemployment rates and rampant consumer spending, it is impossible to mistakenly assume that all people share equally in the wealth of our great nation. However, despite these often touted signs of well being, the majority are struggling. In memory of the late Dr. Martin Luther King, Jr., whose life we celebrate this month, let us join together to return power to the people."

Oregon Representative, Deborah Kafoury
