## Ann Lovejoy's Organic Garden Design School

By **ANN LOVEJOY**  
RODALE PRESS; 2001

An organic gardener all her life and a garden

writer for more than 15 years, Ann Lovejoy began her foray into gardening by growing vegetables and herbs, but soon branched out into making ornamental gardens as well.

Today, her gardens combine plants of all kinds, edible and beautiful, in carefully arranged communities. Her garden designs and plantings echo the layers found in nature.

Ann groups plants with similar needs, according to their roles in their native habitats, and encourages cooperative relationships between people and plants.

Ann Lovejoy creates gardens with solid organic principles in mind: Make great soil and your plants will grow well. Create healthy, ecologically sound plant communities, and they will take care of themselves. She is frequently asked how she gardens so successfully. This book is her answer.
