

IT'S NOT JUST WHAT HAPPENS ON THE TRACK, IT'S WHAT HAPPENS IN THE PITS.

To be a winner in motorsports, you need to deliver record-breaking performances, make the right moves and sweat all the details. And that's just in the pits. You see, a racecar driver doesn't really cross the finish line alone. Teamwork is what wins races. It's also what builds great cars and trucks.

That's something the men and women of UAW-GM believe. And it's what's behind the unique programs that the United Automobile Workers and General Motors Corporation have put together — programs that teach the latest technologies and skills and help to improve quality and safety.

With teamwork, everyone wins — especially the drivers of our GM cars and trucks.

ASSEMBLY LINE TO
FINISH LINE...
TEAMWORK WINS!
