

*Steel side-guard door beams.
Because everyone isn't as
good a driver as you.*

**MITSUBISHI
MOTORS**
wake up and drive

True, the Galant could stop traffic just by driving by. But even more amazing is that for under \$18,000 you get more standard features than a Camry, including more passenger room and an automatic transmission. Throw in steel side-guard door beams and available front side air bags and you'll get the Galant's newest feature as well: an unbeatable 5-star side impact rating from NHTSA.* The Mitsubishi Galant. Are you in?

*Get to work on time. More
importantly, get home on time.
Thanks to a 3.0-liter 24-valve V6.*

Every inch is designed to create an **impact.**

Well, except for the front and rear crumple zones.

*Awarded by National Highway Traffic Safety Administration for driver's position, 2001 Galant with available side air bags. Always buckle your safety belt. Sit well back and upright without leaning against the window or door.
