# Groundbreaking Therapy

Portland General Electric employees donated more than \$106,000 to kick off a campaign for the Oregon Burn Center's Therapeutic Garden at Legacy Emanuel Hospital in north Portland.

The garden will feature trees, flowers, shaded areas and benches for patients who may have limitations to sunlight exposure.

Oregon Burn Center visionaries want the garden to offer patients additional opportunities for psychological, emotional and physical healing.

PGE President Peggy Fowler and Dr. Nathan Kemalyan, the Oregon Burn Center's medical director, led the groundbreaking event last week.
