

# "Costly and Risky."

— *The Oregonian*, Editorial, 10/17/03

A government takeover of Pacific Power and PGE would cost more than \$1 billion. It would create a new layer of government with the ability to raise property taxes. It could easily lead to higher electric rates.

*The Oregonian* says, "Multnomah County voters should reject a costly and risky proposition to create a people's utility district." (*The Oregonian*, Editorial, 10/17/03.) Your friends and neighbors, listed below, agree. Please join them in voting NO on both Measures 26-51 & 52.
