The Talisman Gallery welcomes artists Gail Jordan and Roger Friedel with shows opening Sept. 30 and running through Oct. 24.

Friedel paints to explore color, especially the relationship of complementary color, in a way

Move the Stars

"Moving the Stars With Your Words," a book by Harold Davis, shows readers the steps to achieving personal prosperity and physical health.

According to the author, his book allows readers to identify and remove the obstacles to achieving exactly what they want out of life, rather than standing by and citing all the physical, emotional, mental, social, economic or geographical reasons that thwart Davis' mission is to inspire people to live to their highest potential. Besides his career as a writer, Davis is also an inspirational speaker, life/success coach, and entrepreneur. He has worked tirelessly in search of spiritual truth that makes a positive difference.

We all have the power to achieve personal prosperity and physical health. Who hasn't dreamed of a life where this was true?
