Day of remembrance and call to action

(AP) — A seven-hour funeral celebrating the life of civil rights pioneer Rosa Parks was not only a day of remembrance for the 4,000 mourners who gathered, but also a call to action.

As more than three dozen people spoke of how Parks' historic act of defiance on a Montgomery, Ala., bus in 1955 changed the course of history, many urged Americans to continue her legacy

"You ought to make one commitment in her name to yourself. You ought to resolve that you are going to do something that makes a difference because we're here because Rev. Al Sharpton.

"One thing I've really noticed is that people seem so overwhelmed by this that it's easy to say, 'Oh, forget about it.' It's really important to know that they're not having to do this alone," said Janet Bowman, program coordinator for SHIBA. "There are an awful lot of people that want to help. It's better to go in with your eyes open than to have nasty surprises about your health care because that's the one thing in life where people really don't need any surprises.

Bowman noted that for lowincome residents, it even more important to research the options available.

"This is the first time in 40 years that Medicare has covered outpatient prescriptions. We've had people on Medicare who have to choose between paying their electricity or paying for their medication, or even cutting their medication in half," Bowman said.

She's hoping that through outreach and education, people will feel less intimidated.
