

BLACK HISTORY MONTH

Pins of the Civil Rights Movement

Easily-made, low-cost pins were the badges and insignia of the Southern Freedom Movement.

Though they were cheap to make, the price of wearing one could be high. In many places throughout the South, wearing a Movement pin in public irrevocably marked you for good or ill. It was an act of courage and commitment that could never be undone.

"I can't imagine not being able to go into a restaurant or use a public bathroom or water fountain or even being able to sit in the front of a bus. I never had to go through that, but my family often talked about times when that was going on. I know that would have been a difficult situation for me to handle if I had to do things like give up my seat because of the color of my skin."
