To apply go to: http:// www.faa.gov/jobs/ job\_opportunities/ airtraffic controllers/ for details and to fill out the application immediately - even if the applicants are unsure if they want to attend immediately - it's the federal government and it may take them months to call.

The key is to apply NOW. There will be a lot of retirements coming up rather quickly and they need consideration, contact: Nina Dow, to line up training to accommodate these openings. It's my understanding that the FAA rarely has an open application such as this and that the jobs are coveted.

> This is a great opportunity and it should be noted that choosing a site like Anchorage or Indianapolis to train is a likely acceptance into the training program - after-which you can transfer anywhere in the country that has a tower.
