Clearwire is proposing to co-locate antennas on the following utility/light poles: POR449 - SE 148th Ave in Portland; 2) POR-442 - 6911 SE Powell Blvd, Portland; and 3) 7190 SE King Rd in Portland. Clearwire invites comments from any interested party on the impact of the proposed towers on any districts, sites, buildings, structures or objects significant in American history, archaeology, engineering or culture that are listed or determined eligible for listing in the National Register of Historic Places. Specific information regarding the project is available for viewing and comments PES LLC by calling 610-857-1414 during normal business hours. Comments must be received by June 15, 2009.

The Urban League of Portland is seeking a **workforce development professional** to manage vocational training program in the field of Heating, Cooling, and Air Conditioning (HVAC). This will include recruitment, screening, for all potential program participants. Duties will include providing job preparation, training, job coaching, and support services to clients, and developing employment opportunities for clients through public & private sector partnerships. The program is provided in collaboration with the City of Portland's BHCD and Portland Community college. For further information about the position or to apply, contact Yusuf Mohamed on: ymohamed@ulpdx.org

W. James Singleton Attorney at Law

If you or a loved one have sustained serious injury or death you may have a cause of action:

- Raptiva** - used to treat Psoriasis but can cause rare brain infection known as PML (Progressive Multifocal Leukoencephalopathy), various malignancies, Viral Meningitis, Invasive Fungal Disease, Anemia and Bacterial Sepsis
- Gadolinium** - injected into bloodstream to enhance MRI/MRA screenings but can cause NSF (Nephrogenic Systemic Fibrosis) which can lead to kidney or renal failure. Symptoms may include swelling, hardening and tightening of the skin, reddened or darkened patches of skin, burning and itching of skin, yellow raised spots on the whites of eyes and stiffening of joints.
- Reglan** - used to treat heart burn and gastroesophagal or acid reflux but can cause temporary/permanent involuntary movement (tardive dyskinesia) which can effect the face, and other parts of the body. It has also been known to cause Neuroleptic Malignant Syndrome which symptoms include high fever, sweating, unstable blood pressure, stupor, muscular rigidity and autonomic dysfunction.
- Propylthiouracil** - used to treat Grave's (thyroid) disease in children but can cause severe liver damage or death.
- Permax** - used to manage tremors and slowness of movement associated with Parkinson's Disease or Restless Leg Syndrome. Can cause damage to the mitral, aortic and tricuspid heart valves, which includes leakage of these valves.

Medical Devices:

- Mentor OB Tape** - vaginal mesh sling used to treat bladder incontinence in women but can cause severe infection, extreme vaginal pain, vaginal extrusion and urinary tract erosion.
- Duragesic Pain Patch** - used to treat pain but patch may leak and cause inadequate treatment or a fatal fentanyl/morphine overdose
