REQUEST FOR PROFESSIONAL SERVICES FENTON HALL DEFERRED MAINTENANCE AND RENOVATION, UNIVERSITY OF OREGON

The University of Oregon is soliciting qualifications from architectural firms interested in providing design through construction administration services for Fenton Hall Deferred Maintenance and Renovation project on the University of Oregon campus in Eugene, Oregon.

Briefly, the project, as currently is envisioned, includes seismic structural upgrades, retrofitting existing heating and ventilation systems with more energy efficient HVAC systems, and installing an elevator to increase accessibility to all floors. Although this is a deferred maintenance project, significant demolition is anticipated to accomplish the maintenance upgrades. The University will want to take advantage of opportunities presented by the necessary demolition to improve the operational layout of the spaces. Additionally, replacement of the 1914 stacks addition is under consideration. Should additional funding be obtained to support the replacement of the stacks addition, the resulting contract for this commission will be amended to accommodate the services required to execute that work.

Architectural firms responding to the Request for Qualifications (RFQ) must have an office location in Oregon and be licensed or have an application in process to practice architecture in Oregon.

Firms may obtain the RFQ by registering electronically at the following web address:
<http://uplan.uoregon.edu/ArchSelect/Fentonform.html>
 or may phone or write to:

Campus Planning and Real Estate
 1276 University of Oregon
 Eugene, OR 97403-1276
 Telephone: (541) 346-5562

Submissions of qualifications must be received in the UO's Campus Planning and Real Estate office by 4:00 P.M. PDT, Tuesday, August 4, 2009.
