### LOOK WHAT'S HAPPENING IN NORTH AND NORTHEAST PORTLAND.

The Portland Development Commission has partnered with hundreds of property owners, small and large business owners, non-profit and government agencies and citizens in North/Northeast Portland to support job creation and business expansion, housing projects, develop commercial buildings, and revitalize neighborhoods with community gathering places, street improvements, parks and open spaces. The new opportunity that lies ahead is called: the North/Northeast Economic Development Initiative.

Look ahead. Help shape the area to make a real and positive difference in people's lives for years to come.
