

Living Well

Many people fighting life-threatening diseases like leukemia and sickle cell anemia need a bone marrow transplant to survive. Donor matches are critical, but only 7% of the 9 million Be The Match Registry® members are African American. Together, we can make a difference.

For every person who joins the Be The Match Registry through nordstrom.com/bhm from February 1-28, Nordstrom will cover the cost of adding that new member to the registry, up to \$75,000.

For more information or to learn how to register, visit nordstrom.com/bhm
