# Observing

C-TRAN buses in Vancouver will provide easy access to the July 4 Fort Vancouver fireworks celebration by boarding buses at the Westfield's Vancouver Mall where courtesy parking will also be available.

## Shuttles to July 4 Fireworks

C-TRAN Special Event shuttles will once again provide service to the fireworks celebration at The Fort Vancouver National Historic Site on Monday, July 4. Shuttle service is provided only from C-TRAN's transit center located at Westfield Vancouver Mall. Parking is courtesy of the mall.

Shuttle buses will depart from the shopping center's north lot approximately every 15 minutes between 6 p.m. and 8:30 p.m. Return service to the mall begins immediately following the

fireworks display. No additional shuttle service to or from the National Historic Site is provided.

C-TRAN shuttles accept pre-purchased C-TRAN event shuttle tickets, available at any Clark County Safeway store or C-TRAN Passenger Service Office for just \$2 each. Cash or C-TRAN day and monthly passes are also accepted (drivers do not carry change - exact cash only). All fares are round-trip and payable upon boarding at Vancouver Mall. Children six years and under ride free.

## C-TRAN Launches NextRide Service

### GPS information tracks bus arrival times

C-TRAN has launched NextRide, a new system providing riders with estimated real time bus arrivals for every C-TRAN bus stop.

The technology is based on a satellite Global Positioning System (GPS) which tracks the bus' current location and its rate of speed to give an estimated arrival at the passenger's bus stop of choice.

The service also provides the next four scheduled arrivals at a bus stop plus any future scheduled arrivals on a date specified by the user. If passengers want to know what time a bus is scheduled to arrive at a specific stop one week from today, they have the option to request that information.

"We're proud to offer such a useful tool for our riders giving them easy access to information

they need to keep moving in an increasingly mobile world. If you have a phone, you have your NextRide," said Jeff Hamm, C-TRAN executive director and chief executive officer.

It's easy to use NextRide by calling 360-695-0123 and choose "Option 1."

When prompted, passengers can enter their four digit stop ID number found on their bus stop sign. If a bus stop doesn't have an ID number yet, passengers can follow the prompts and let NextRide locate the bus stop ID for them, or passengers can request their stop ID number by calling C-TRAN's Passenger Service Office or visiting C-TRAN's Web site.

C-TRAN express riders in downtown Portland may experience some problems with the system due to radio signal limitations from tall buildings. When that happens, the NextRide message will default to the next scheduled arrival. C-TRAN says it will work to correct this issue later this year.
