Dr. Billy R. Flowers (above center) and his skilled staff are ready to help those in need.

## THE SPINA COLUMN™

An ongoing series of questions and answers about America's natural healing profession.

### Part 6. HEADACHES: Why Chiropractic is nature's long-lasting pain reliever.

**Q:** I always seem to be plagued with headaches. They come up over my head and seem to stop at my eye. What can Chiropractic possibly do to help me?

**A:** About 70% of all people experience headaches of one sort or another. The type you describe is quite typical. The pain can range anywhere from moderate to nauseating. The top three nerves in the neck go up over the back of the skull in a very similar pattern to what you describe. Any type of pressure or irritation on these nerves can cause extreme pain. Your prob-

lems could be nerve-related and therefore, stand a very good chance of being relieved by Chiropractic.

**Q:** Why should I go through a full course of Chiropractic when drugs often relieve my headaches?

**A:** Drugs work primarily on relieving pain, but not on treating the cause of the headache.

What's more, drugs have serious side effects. The only side effects of Chiropractic are relief from pain and a healing of the cause of pain. To find out how Chiropractic could help relieve your headaches or for answers to any questions you might have about your health, please call us at the telephone number listed directly below.

#### Flowers' Chiropractic Office
