Part 30. Genuine Benefits of Chiropractic Help

Q: Can a chiropractor really help my problems?
A: You have no doubt heard how chiropractors helped a friend's headaches, neck pain, neck stiffness, back pain or fatigue?

But, it is perfectly normal for you to wonder whether a chiropractor can really your particular problems. Your headaches. Your neck pain and/or stiffness. Your back pain or other symptoms. Problems you may have had for some time.

The truth is, doctors of chiropractic are extremely successful at eliminating many symptoms. Often more quickly and effectively than other healing methods.

But, your doctor of chiropractic can do so much more for you than just treating symptoms. Your chiropractor is concerned with making sure your entire body is function-

ing properly. Therefore, your chiropractor goes beyond treating your immediate symptoms to make sure your body is still functioning efficiently. That is the only way true health can be achieved.

But we aren't the only ones who have said it. Chiropractic has been accepted by the ultimate authority; you the people.
