## REQUEST FOR QUALIFICATIONS DESIGN-BUILD SERVICES UNIVERSITY HOUSING CENTRAL KITCHEN AND WOODSHOP, UNIVERSITY OF OREGON

The University of Oregon is soliciting qualifications from Design-Build teams for the construction of the University Housing Central Kitchen and Woodshop at the University of Oregon in Eugene, Oregon.

The project generally consists of the creation of approximately 25,000 gross square feet of new space to accommodate kitchen and related storage facilities currently located in Carson Hall and Bean Hall and woodshop space currently scattered throughout University Housing facilities. The Kitchen facility will provide space for food preparation and distribution to the many food serveries within University Housing's residence halls and for catered meals provided by University Catering across the campus. The Woodshop facility will provide space to repair damaged and broken furniture used within the various housing facilities. The woodshop also could provide expansion space for the central kitchen operations if needed in the future. The new facility will include features for loading and unloading trucks to both receive raw materials and distribute finished products for both the Central Kitchen and the Woodshop. The Central Kitchen and Woodshop will replace very old and outdated facilities. The new, modern facility will meet the increased demand while providing outstanding service with local and sustainable products for the campus and community.

Design-Build teams responding to the Request for Qualifications (RFQ) must be licensed in Oregon.

Firms may obtain the RFQ by registering electronically at the following web address:
