Portland's Working Harbor

A new book "Portland's Maritime History" tells the story of how Portland is not only the site of many maritime terminals along the Willamette and Columbia rivers, but also home to much of America's maritime history.

More than 200 vintage images illuminate Portland's history as a port city, starting in 1840 with construction of the schooner Star of Oregon. Over 100 years later, three Portland shipyards would build 621 ships for World War II.

"Portland's Maritime History" is available at area bookstores and retailers, or through Arcadia Publishing.
