

You've got options!

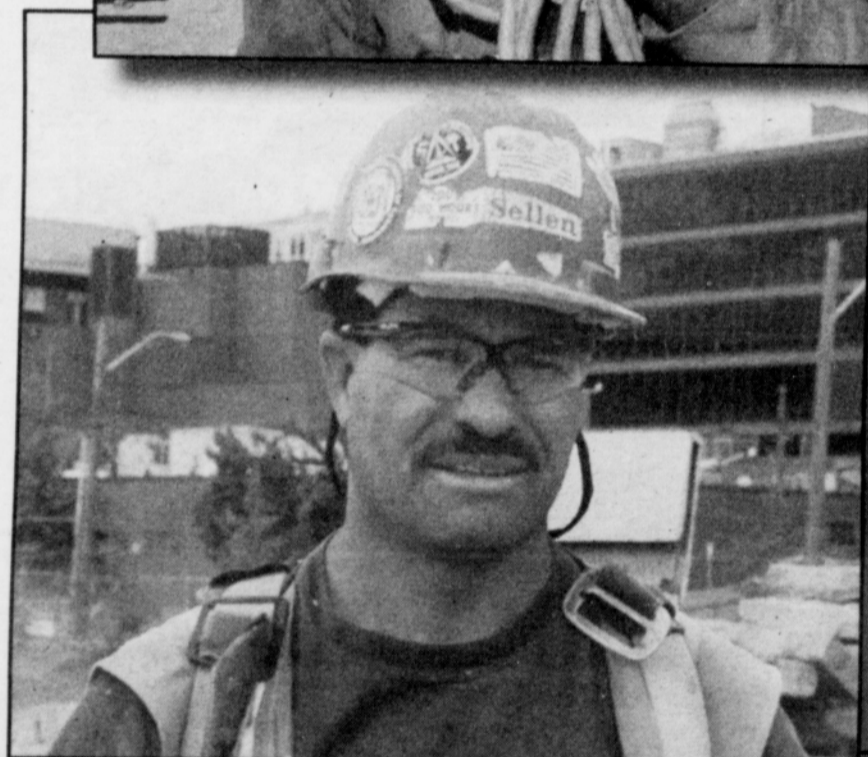

LOOKING FOR A CAREER?

As a carpenter apprentice you can learn a trade through an innovative program that combines classroom instruction with hands-on training.

EARN WHILE YOU LEARN!

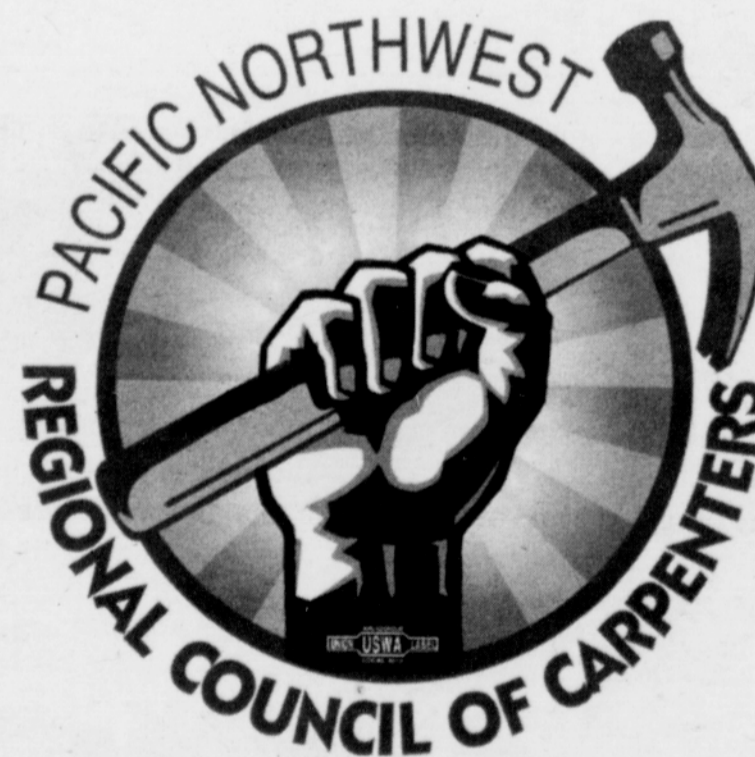

Carpentry offers a number of different specialties in the building trades such as drywall, acoustical systems, wood and metal framing, piledriving, scaffold erecting, cabinet making, finish work, and many others.

Apprenticeship can yield a life-long, rewarding career rich with opportunities.
