

### PGE renewable customers are #100k strong!

PGE customers are making a difference. As a whole, our green power community has purchased more than 5.6 billion kilowatt hours of renewable energy to date, which is enough to:

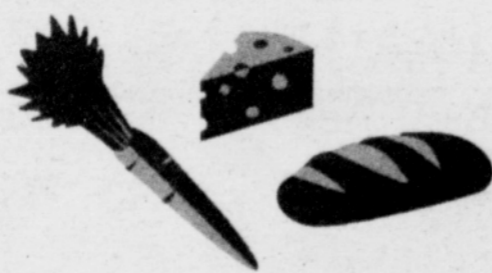

Light up an iconic "Portland, Oregon" sign for over 145,000 years

Charge over 1.3 million EVs with zero-emission electricity for one year

Produce 78 billion pints of craft beer, and 14 billion shots of Northwest espresso

Operate 1 million organic food carts for a year

Run all of the ski lifts on Mt. Hood for 449 years

By choosing renewable power from PGE, our community of more than 100,000 customers is forging a cleaner outlook for all of us. To join them in enrolling, visit [GreenPowerOregon.com](http://GreenPowerOregon.com). You'll get that warm, earth-hugging feeling, plus dozens of coupons from local, green businesses.
