'Straight Outta Compton' Debut Photo

Universal Pictures has just announced the release date for the highly-anticipated biopic "Straight Outta Compton," due in theaters next summer, Aug. 14, 2015.

In the mid-1980s, the streets of Compton, Calif., were some of the most dangerous in the country. When five young men translated their experiences growing up into brutally honest music that rebelled against abusive authority, they gave an explosive voice to a silenced generation.

"Straight Outta Compton" tells the story of how these youngsters revolutionized music and pop culture forever the moment they told the world the truth about life in the hood and ignited a cultural war.

IceCube and Dr. Dre debuted the first photo of the cast last week on Twitter. O'Shea Jackson Jr., Jason Mitchell and Corey Hawkins star as Ice Cube, Eazy-E and Dr. Dre.
