Where you can
'count' on
having fun!

"Go Figure!" is a new travelling exhibit that introduces early math concepts through kids-sized environments and familiar children's books.

Using popular children's books such as Arthur's Pet Business, The Doorbell Rang and Goldilocks and The Three Bears, children and caregivers are engaged with materials that show how math impacts our everyday lives. Presented in English and Spanish, "Go Figure" is now on view at the World Forestry Center Discovery Museum through Feb. 1.

Throughout this discovery-filled exhibit, the popular children's books are brought to life in oversized reproductions of the artists' original illustrations. Inside each large-scale book, visitors find an attached copy of the featured book, a math based interactive relating to the book's narrative, and tips for parents on supporting their child's early explorations of math concepts.

Comfortable rugs, seating areas, and plenty of books in both Spanish and English complete the experience so visitors can stay a while, relax, and have some fun learning!

Admission is \$9 for adults, \$8 for seniors and \$6 from children ages 3-18.
