## Empowering Military Construction

CONTINUED FROM PAGE 5

For the past 75 years Seabees have served in all American conflicts. They have also supported humanitarian efforts using their construction skills to help communities around the world following earthquakes, hurricanes and other natural disasters.

Serving in the U.S. Navy, has allowed Idao to continue learning about the legacy for future Seabees.

"I have the ability to be part of something much bigger than myself," said Idao.

Tim Miller is a Mass Communication Specialist 1st Class with the U.S. Navy.

### Part 28. Industrial Injuries:

#### What to do if you are hurt on the job

**Q:** I was lifting a heavy object on the job site and my back just collapsed on me. I have since gone to several company doctors only to get yet another pain pill. One doctor has mentioned surgery. What do you think I should do?

**A:** You should immediately request to see a Chiropractor. Approximately 90% of back injuries have the capacity of being helped through Chiropractic. Our office has

an excellent track record with helping problems like yours. We make every attempt possible to get you back on the job safely as soon as possible - often within a few days. This is obviously beneficial not only to you but your company as well. It is not uncommon for a workmen's compensation back surgery to run \$100,000. I'm

sure your employer would just as soon not have expenses like that. Speak to your employer today about having a Chiropractic consultation. If you have had a lifting injury or suffer from pain, why don't you call us today. A life of suffering is indeed a wasted life. Don't let it be yours.
