Don't Need a Prince Charming

Oregon Children's Theatre presents "Ella Enchanted," a story of a young girl who overcomes outrageous obstacles and proves that she doesn't need a prince charming to save her – she has the power to save herself!

The fairy tale musical for children of all ages is about self-empowerment, perseverance and an eagerness to learn, based on the best selling novel of the same name.

Ella of Frell is anything but ordinary. At birth, she was enchanted by a foolish fairy's spell and must obey any command she is given, no matter how absurd. At age 15, Ella sets out on a quest to break the curse forever!

Now playing on Saturdays at 2 p.m. and 5 p.m. and Sundays at 11 a.m. and 2 p.m. through Nov. 18 at Newmark Theater, 1111 S.W. Broadway. For more information, visit octc.org.

A young girl overcomes outrageous obstacles and proves that she doesn't need a prince charming to save her – she has the power to save herself. The Oregon Children Theater's production of "Ella Enchanted" is based on the bestselling novel.

Flicker flame bulbs come in a variety of colors.

Flicker Flame Safety for Holidays

BY THE LIGHT LADY AT SUNLAN

Flicker Flame lights are often seen as Halloween bulbs but are great for many occasions. Inside the pumpkin, they look like real candles. The light flickers and bounces inside the plastic jack-o-lantern. The same bulb placed in a fixture and set in your window is a fun decorator touch to say welcome or just to greet you when you return home.

December is full of holidays that use candles to honor the beliefs of many religions. Using flicker flame bulbs is an easy way to have the look of a candle and be safe. One way to use them is with a timer to turn the light off and on at a given time each day.

I use flicker flame lights in my home in many ways. In my kitchen

en windows I have them in several pretty candle stick holders that we made from our wide selection of fixture parts. I also use flicker flame bulbs in the bathroom. Two of them create enough light to see at night and are fun to enjoy when bathing. In the dark, the light reflects off of the chrome and glass in the room, creating many points of light. In my living room I created an art display with salt rocks, flicker flame bulbs and a dragon lady my son gave me.

We now have flicker flame bulbs in LED. Both types come in standard -e26 and candelabra-e12 light bulb bases. We have an LED bulb that has the G4 bi-pin base to replace JC20 watt 12volt halogen bulb.

Come visit us at Sunlan Lighting, 3901 N. Mississippi Ave.
