New Portland street sign toppers commemorate the memory of Mulugeta Seraw, an Ethiopian immigrant and graduate student who was killed 30 years ago by racist skinheads. The city has installed 16 of the signs in southeast Portland's Kerns neighborhood, the district where Mulugeta had lived and was killed.

CONTINUED FROM FRONT

for a successful 1990 Southern Poverty Law Center civil lawsuit filed in Oregon against California white supremacist Tom Metzger. A Grand Wizard of the Ku Klux Klan in the 1970s, Metzger founded the White Aryan Resistance in the 1980s. He was found liable of Seraw's death based on the killers' associations with Metzger's group.

Today, racist groups are actively recruiting in the Pacific Northwest and have contributed to

an escalation of violence at political rallies.

Documents revealed just this week show that the FBI has provided an assessment to the Clark County Sheriff's Office that the Proud Boys, a band whose members have appeared at right-wing rallies in Portland and Vancouver and have been involved in street fights with counter protestors, have been designated an extremist group with ties to white nationalism.

The Southern Poverty Law Center had previously listed the Proud Boys as a hate group.

## THE SPINA COLUMN™

An ongoing series of questions and answers about America's natural healing profession.

### Part 7. CHILDREN & CHIROPRACTIC: Start off early in life for a lifetime of health

**Q:** When will my children be old enough to benefit from seeing Chiropractor?

**A:** Children of Chiropractors often receive their first spinal adjustments the day they are born. Using special techniques for infants, Chiropractors are able to correct spinal misalignments caused by the traumatic and turning of childbirth. What's more, we're frequently able to alleviate infant problems like colic that often keeps both babies and parents up all night.

**Q:** I have a friend who takes her children to a Chiropractor even

when they aren't sick. Why would she do this?

**A:** Actually, there are more reasons for children to see a Chiropractor regularly than there are for adults. First of all, because of their activities in school and out, children naturally take more spills than an average adult. This is one of the most common reasons people bring their children to a Chiropractor. But the

best reason of all is so that with regular Chiropractic care, children can develop a nearly perfect spine. Not only to help them do better in school, but to gain increased strength, health and vitality throughout their adult lives. To find out all the ways Chiropractic can help your children experience a lifetime of good health, please call us at the number below.
