Dr. Billy R. Flowers

THE SPINA COLUMN™

An ongoing series of questions and answers about America's natural healing profession.

Part 22. Chiropractic and Health

A way of Life...not just a passing diagnosis.

Q: Following a thorough check-up my doctor says that I'm "fit as fiddle." If this is true, why do I often suffer pain?

A: It is indeed interesting that a doctor can give a "thorough checkup" and yet fail to fail to evaluate the spine and nervous system. I'm sure that while in school your doctor learned that the nervous system controls every other organ and function in the body. Doesn't it

make sense then that a truly thorough checkup should include not only blood pressure, weight, chest and eye exam, etc but should also and primarily include a detailed evaluation of the nervous system? In Chiropractic

We study the nervous system and the spine completely to assure you that we

find the cause of your problem. If you have persistent aches, pains or fatigue, there is a reason for it. If you haven't had a Chiropractic evaluation, you have NOT been examined completely. For the sake of your health now and in the future, call today. Isn't it time you stepped up to Chiropractic?
